

**THE GUARDIAN PLAN BASICS:** *The annual premium covers the yearly servicing, all emergency calls and parts listed as covered under the plans. Prices for the Guardian Plan vary dependant on equipment covered.*

*Fill out the attached information card, detach at the perforation, fold with mailing label on the outside and return to Banner Fuel ASAP. The sooner your coverage begins, the sooner you start to save!*

### Oil Furnace Plans:

**Plan A :** *allows for a major servicing annually which includes the following:*

Replace Oil Line Filter  
Clean and Flush Pump  
Flush Oil Line  
Clean Burner Blower  
Clean Burner Housing and Blast Tube  
Replace Nozzle  
Clean and Adjust Electrodes  
Lubricate All Motors and Bearings  
Check and Adjust All Controls  
Check and Adjust Draft Regulator  
Adjust Fire for Peak Efficiency  
Change Air Filter

**Plus a mid-year service call where the technician will:**

Change Air Filter  
Lubricate Motor and Bearings  
Check and Adjust for Maximum Combustion Efficiency  
Check Mechanical Parts and Controls and Replace as needed

**Plan B :** Which gives you the same major service annually but doesn't include the mid-year check-up and filter change.

### Air Conditioner/Heat Pump Plans:

*(Must have GP coverage on heating system to qualify.)*

**Allows for a major servicing annually which includes the following:**

Change air filter  
Check refrigerant charge  
Lubricate motors & bearings  
Check and adjust controls  
Check coil and air flow  
Check operating pressures  
Check temperature differential  
Check amp draw of equipment  
Check operational cycle

**Gas/Electric Furnace Plans:** *allows for a major servicing annually which includes the following:*

Clean Burners (gas)  
Clean Pilot (gas)  
Clean Sensor  
Clean & adjust igniter  
Clean burner compartment  
Check Thermostat  
Check – lubricate all motors & bearings  
Check and adjust controls  
Adjust burners for peak efficiency  
Change air filter  
Tighten all wiring  
Check amp draw of motors  
Check elements  
Check sequencers

*We also offer maintenance plans for your add-on equipment such as humidifiers, hot water tanks and electronic air cleaners. You must have coverage on your heating system to qualify for this coverage.*

### Covered Parts:

Ventalarm	Nozzle Line
Tank Gauge	Blower Motor
Oil Filter and Cartridge	Blower Pulley
Oil Line (Above Floor)	Circulator Coupling (One Only)
Nozzle and Adapter	Fuel Pump & Coupling
Burner Electrodes and Electrode Holder	Oil Burner Motor
Draft Controls(6" to 9")	Blast Tube/End Cone
Solenoid Valve	Vent Cap
Primary Control	Combustion Chambers (Up to 2 Gals)
Plain Thermostat (One Only)	Burner Fan
Aquastat	Pump Bellows
Firematic Valve	V Belts
Burner Switch	Fan and Limit Control
Oil Check Valve	Smoke Pipe to 9"
Fan Bearings	Circulating Motor (One Only)

### Contract Exclusions:

The maintenance plans cover normal usage of your equipment and is subject to acceptance by the service department manager. It does not protect against damage due to war or natural disasters such as lightning strikes, flood, freezing or loss of power. Coverage does not extend to loss, damage or inconvenience due to heating equipment failure. The plan does not cover cleaning the duct work. Guardian Plan coverage becomes null & void if payments for services and fuel are not made in accordance with our regular credit terms, or if work is performed on the equipment by someone other than a Banner Fuel technician. Obsolete or unobtainable replacement parts are not Banner's responsibility. The Guardian Plan coverage automatically renews annually, at which time the premium is billed to the customer. Prices for the policy are subject to state tax and to change without notice. A new plan does not go into effect until the acceptance service has been performed. Coverage for major repairs within two weeks of the acceptance service call will be subject to review by the service department manager.

### Parts Exclusions:

Oil Tanks  
Ducting  
Controls for air conditioning  
Auto vent dampers  
Heat exchanger  
Underground fuel lines and valves  
Compressors and Reversing valves  
Thermostat coverage is limited to one plain thermostat, unless additional coverage for special heating/cooling thermostats is purchased.

### Boiler System Exclusions:

Bearing assemblies  
Pressure controls  
Expansion tanks  
Fill & relief valves  
Pump impellers  
Low water cutoffs  
Zone valves  
Additional circulation pump motors & couplings  
Air handlers on hot water systems  
**Underfloor radiant heat systems are also excluded from coverage.**
